

Today women have a glass ceiling. In the 1930s that ceiling was made of wood, so following your dream only took you so far—especially if you went against societal norms and what your friends and family told you you should or should not do. This is the story told in A Burnished Rose, the much-anticipated sequel to the award-winning Rosebloom. Rose Krantz, a soon-to-be eighteen-year-old, has just come home to the family farm in southwest Wisconsin after running away from home two years earlier to follow her dream. She returns home because her mother has been ill, but Rose is not looking to stay. Despite the objections of her family and a new man who comes into her life, Rose makes it back to her second home, New Orleans, and her boyfriend, Malcolm. Then, early one morning on December 7, 1941, bombs explode on the small, distant island of Hawaii. This incident pushes Rose, who is in Baton Rouge training to be a nurse in WWII, into a global conflict that ironically will come to be known as “The Good War,” including her brothers’ adventure as a flying tiger in China. A Burnished Rose entertains, inspires, and reminds us what life was like for women of that era, and for the nurses who, right along with the men, made significant sacrifices for their country. A percentage of the profits of each book sold will be donated to help in the education of disadvantaged children, because Christine believes that knowledge is a powerful tool.
