

In this book, the author provides insightful information on how ten of the most common emotional issues can occur when growing up as a child. How they spark a form of abuse, obsession and possible confusion are also ways a parent can tell when something is wrong with their child. The book is not only to be interpreted as an outline look of of your child, but also from a psychological perspective and chances are any of these common issues noticed with a child can be a repeating pattern from how mom or dad might have grown up. Here some of the most common issues you could question when concerning for your child's state of mind. Abuse, Obsession, emotional, mirror, intelligence, confusion, psychological.
