

We are proud to present to you the first comprehensive book on Malawi-Cichlids with ca. 1,500 full color photos in one single volume! Easy-to-read instructions make working with this book a pleasure. All AQUALOG -reference books introduce each fish (incl. breeding forms etc.) with at least one color photo and a short description. The ingenious code number system labels every known or newly discovered fish with an individual code number. This number remains, despite any scientific renaming. Moreover, it enables you to communicate internationally about any fish without the danger of confusion regarding local names! Your AQUALOG -reference book always stays up-to-date! All newly discovered or bred species are regularly published as supplements or so-called stickups in our AQUALOGnews. These stickers can be attached to the empty pages at the end of your book. If you want more information about these interesting fishes, you'll find it in our AQUALOG -Special Freshwater Coral Fish: Cichlids from Lake Malawi!

Langelo e la Spina (History Crime) (Italian Edition), The Adventures of Tom Sawyer, La estetica Nazi: Un Arte De La Eternidad (Spanish Edition), Shaker Dishcloths & Coasters, Essential Oils: Essential Oils and Aromatherapy For Heathy Living: Using Essential Oils & Aromatherapy for Sleeping, Weight Loss, Stress Relief, First Aid & More Aromatherapy Recipe Blends, Migration and Integration - Japan in Comparative Perspective (Japan & Europe), The Condor: Journal of the Cooper Ornithological Society - Volume 83, Number 1 - February 1981, The Lost Celt,
