

The concerns of the world community today are more fluid and less focused than during the Cold War period. Issues of ethnicity and nationalism, the proliferation of weapons of mass destruction, and the diffusion of technologies to Third World countries dominate the international security landscape. Multi-lateral agreements.....which employee confidence building measures, transparency processes, on-site inspection and verification assist in improving relations and thereby lessen distrust, uncertainty, and tensions. These broad themes, examined substantively and from a regional perspective, are the focus of the eighteen articles comprising this volume-papers commissioned for and presented at the Sixth Annual Arms Control Conference held at the John G. Tower Center of Southern Methodist University, Dallas, TX, in November 1995.
