

Raccolta di brani per pianoforte (comprendente sia brani inediti, ma anche elaborazioni di musiche celebri appartenenti al repertorio della musica classica, sacra e non) che nasce con lintento di non proporre un metodo rigido, tipico di un classico per-corso accademico di pianoforte, bensì vuole essere unattenta e valida guida didattica che ripercorre ed affronta, se pur talvolta in modo ermetico, estemporaneo, pratico e semplice, le varie tecniche pianistiche di base. Lo studio al pianoforte è visto a 360 e questo volume si propone di illustrare i vari stili musicali in cui il pianoforte, protagonista principale, viene utilizzato senza tralasciare le tecniche moderne. I brani vengono presentati non in ordine di difficoltà, bensì rispettando un ordine alfabetico ed hanno, altresì, lobiettivo di educare lorecchio dellallievo non solo al suono consonante, ma anche a quello dissonante. CONTENUTO:
