

This book aims to provide all of Bobby Fischers writings (except My 60 Memorable Games and Bobby Fischer Teaches Chess) in one place. This includes Bobbys first book (Bobby Fischers Games of Chess), articles he wrote for his columns in Chess Life and Boys Life, his contributions to Chess Informant, co-authorship of Chess Meets of the Century, contributions to the American Chess Quarterly and much more. Much of this material appears for the first time in algebraic notation. The authors have taken a critical look at Fischers writings and offer many new observations. Dozens of never before seen pictures of Fischer and his contemporaries round out this massive work which comes to over 450 pages in print form.
