

This is a high quality Combination March Sheet Music for piano by Scott Joplin properly formatted for the Kindle and for printing as well. The MIDI file is included in the download section. We tried our best to bring the best sheet music quality in this kindle title. We would like to draw your attention to few points you can make use of for this Kindle title: A. Recommended Kindle Device to use: This Kindle title is recommended for Kindle DX and Kindle for PC. While it perfectly works on all Kindle devices, it works better on Kindle DX and Kindle for PC because of the larger screen size (adjustable size for Kindle for PC) and thus, better sheet music. All the music sheets will show perfectly on regular Kindle, Kindle fire and all other Kindle devices but the maximum size of the music sheet (including the zoom) will be the size of your screen device. Our music sheets are about 10 inches in height and 7 inches in width (i.e they will fill the full screen of Kindle DX but will be shrunk to fit all other Kindle devices screens). B. Printing the Music Sheets: Yes, we give you the chance to print your music sheets in high quality on paper! While no Kindle device allows printing, or can be connected to a printer, there are several ways and work around to print from your Kindle device. However, all of these ways are troublesome and will yield a low quality print. Our work around allows you to print your music sheets in max resolution and excellent print quality in an easy way. In Your Kindle title that you just purchased, go to the chapter Print Ready Version. You will find a download link that you need to visit from your computer and download it directly using the provided password to your pc (or download it to your kindle device if it allows so and then transfer it to your pc for printing). The downloaded file is a high quality pdf file that you can print from any pc. C. MIDI File Included: In your download of the print ready version, you will also get the MIDI file of the sheet music so that you can listen too! D. Auto Turning (Hand Free) of Pages: We have also enabled Text To Speech feature for this Kindle title. The purpose of course is not to get the Kindle read the sheet music for you (it cannot). The real reason is to allow automatic page turning by the Kindle device (if your Kindle does not support Text To Speech, then this feature will not work). To allow hands-free turning of pages so that the Kindle itself will move from one sheet music page to another without you using the buttons (this makes it easier for you to keep your hands for your music device instead), please follow these steps: 1. Load your Kindle title (the sheet music) 2. Turn on Text To Speech feature by pressing the Text key and then using the five-way button 3. Lower the voice (audio) of your Kindle device to zero 4. Play with the "Text To Speech" speed (by pressing the Aa) until it matches your own time to finish one page of the sheet music (how much time you need to finish one page of the music sheets) 5. Viola... now the Kindle itself will move to the next page once you finish one page of the sheet music!
