Heaviside Mathematics is a tool for thought. A highly necessary tool in a world where both feedback and non-linearities abound. Similarly, all kinds of parts of mathematics serve as tools for other parts and for other sciences. Applying a simple rewriting rule to the quote on the right above one finds such statements as: One service topology has rendered mathematical physics .. .; One service logic has rendered computer science .. .; One service category theory has rendered mathematics .. . All arguably true. And all statements obtainable this way form part of the raison detre of this series.
