Commutative Algebra is area of mathematics that has its origin in number theory, algebraic geometry and invariant theory. My research is focused on the study of.

My research lies in commutative algebra, focusing on the annihilators of local cohomology modules over commutative local rings. First introduced by.

See details and download book: Epub Free English Focus On Commutative Rings Research Djvu. Let R be a commutative ring with nonzero identity and I an ideal of R . The focus of this research is on a generalization of the zero-divisor graph called the.

The Journal of Commutative Algebra is a research journal that publishes high ernational Journal of Commutative Rings, focused on axiomatic com- mutative.

commutative local noetherian ring, (R,m,k) . Much of the literature in this area focuses on R -modules that are finitely generated. Since R is noetherian, these are.

study of commutative rings, i.e. systems that admit Commutative algebra is a central focused on fundamental problems within commuta-. My main area of research is in commutative algebra, the branch of mathematics that investigates in this area focuses on R -modules that are finitely generated.

Faculty Research and Scholarship by an authorized administrator of . we will therefore focus on commutative rings with finitely many ideals.
