

Forces that Work in You - Sin is a living, spiritual entity. When sin is in your life, its not just something that sits there. It is something alive, operative, active, wanting to increase its hold over your life and produces death. The Holy Spirit works to energise us. What does He energise us to do, and how do I get that happening in my life? Gods Word Works In You - The Bible says if I dont do the word of God, if I dont apply into my life what Gods saying to me, actually I end up quite deceived. I think Im doing real well, because I measure doing real well by the information I know - Ive got three folders worth of Bible notes. Ive been to Bible school. But none of this, until its applied, changes my life. So the Hebrew way of thinking is very simply this; what you are doing, is what you know. Speaking in Tongues The gift of tongues is one of the most wonderful gifts that God has given you and me, and it is vital for building a spirit dimensional life around you. Without the flow of the spirits life within you, youre left to live out of your own efforts and willpower, and without the intuitive flow, direction and guidance of the Holy Spirit. Youve got something that can change your life as a gift to you. Hes called the Holy Ghost. Jesus said Ill not leave you alone. He said Ill give you another comforter. Hes been with you, now Hell be in you. Youve got some fire inside you and he said they were filled with the Holy Ghost, began to speak in other tongues as the Spirit gave them utterance. Its fantastic. Tongues and Interpretation - How we can be immersed into the spiritual dimension, and be clothed with power from on high. This is a gift, available to all who desire it. Receiving the Holy Spirit (Born Again) versus receiving the total immersion (Baptism of the Holy Spirit). To express ourselves in this new culture we need a language which bubbles up from within - energising our inner life, speaking out mysteries and more. Words of Knowledge - Learn how to operate the Word of Knowledge - a powerful revelation gift to open up a persons life. Speak the Word of God - Things from the unseen realm of the spirit, make their way into the physical world, by speaking words. Your words have power to shape your world, they have already shaped your world, and shape it today. With a heart man believes, with the mouth man confesses to salvation. Death and life are imparted to people through words, because theres a spirit content to it. The word of God has power to change your life. The mixture of meditating and speaking is what causes the word to become alive, and energised in your life. The Truth about Tattoos - The book of Leviticus includes a prohibition against Tattoos (& cutting, mutilation), which is often not well-understood or observed. Theres a natural/historical context, such as its association with Slavery and Baal worship; but also a spiritual context, involving blood covenants and supernatural laws. That side is related to the Deliverance ministry (commonly known as Exorcism) - one of the 3 parts of the Great Commission, which all believers are entrusted with. Audio Transcripts of 5 sermons, with links to Audio, Video, & Notes

Applying Forces, doing Work and developing Power. Applying Forces: Force is a push or a pull and many forces are acting on you all of the time. Usually you.

18 Feb - 2 min - Uploaded by Veritasium Most people can identify the gravitational force down, but there must be You compress this. Work is calculated by how hard and how far you push (or pull) an object. You can exert a great deal of force (pushing on a wall) without doing

work if the object to which the force is applied does not move. The force and the motion must be in the same direction (motion is parallel to force). As a result, you would go bouncing down the field. There are often many forces at work. Physicists might not study them all at the same time, but even if you were. When forces and accelerations are used, you usually freeze the action. If a force is applied but the object doesn't move, no work is done; if a

The work is subsequently calculated as  $\text{force} \times \text{displacement} \times \cos(\theta)$  where  $\theta$  is the angle between the force and the displacement. And that's exactly what you do when you use one of The Physics. There are tons of forces that balance out on your body while you walk. Subsequent physics classes will tell you about each and how they are. Work is done whenever a force moves something over a distance. You can calculate the energy transferred, or work done, by multiplying the force by the displacement.

Look a bit more closely and you'll see some other forces working on the ball too. When your foot meets the blown-up ball, the ball squashes. 27 Oct - 4 min A conservative force exists when the work done by that force on an object is zero.
