

Purpose: Audio-Digest Foundation CME/CE activities are designed to provide its learners “physicians and other healthcare professionals” with continuing education that will help identify clinical problems in their practice settings, provide content to help to solve those problems, and increase their application of knowledge to practice. Audio-Digest Gastroenterology is specifically designed to provide the participant with state-of-the-art information, including, but not limited to, procedures and techniques and/or the diagnosis and management of: Inflammatory Bowel Disease Irritable Bowel Syndrome Gastroesophageal reflux disease Ulcer disease Liver disease Pancreatic disease Cancer within the digestive system Endoscopy Esophageal disease Colon problems Transplantation Nutrition The goal of this program is to improve the management of inflammatory bowel disease (IBD), especially in pregnancy. After hearing and assimilating this program, the clinician will be better able to:

- 1: Recommend and prescribe appropriate drugs that are safe during pregnancy in women with IBD.
- 2: Recognize the effect of the disease state on the course and outcome of pregnancy.
- 3: Advise patients about the appropriate time for surgery and appropriate time for conception.
- 4: Determine the appropriate delivery choice in pregnant women with IBD.
- 5: Elaborate on the advantages of using cyclosporine to manage ulcerative colitis.
