

God, Technology, & Us is an eye-opening and intriguing analysis of how we all use personal technology and the implications that behavior has for our relationship with God. This timely, thought-provoking book sheds light for Christians struggling to deal with the feelings of distraction and disconnection that can be brought about by digital living. Fortune 100 Innovation Strategist and Christian Educator Marcus Hammonds looks at how we use digital tools, such as social media, smartphones, and the Internet, and contrasts that with the behavior of individuals in the biblical narrative. With the Bible as his guide, Hammonds diagnoses the heart of our issues with technology. He then offers suggestions for how we can change our relationship with technology for the sake of our worship of God.

Digital technology saturates our lives: smartphones, social media, Google and more “to digital technology than what the tech companies are telling us. Technology is a gift from God, but it's been affected by the fall. . [1] Tim Challies, The Next Story “ Faith, Friends, Family and the Digital World (Grand.
