

This book covers the present status of art of grand unification with and without supersymmetry (gravity), including cosmological consequences. It is addressed to graduate students and researchers interested in this fastly developing field. But without necessarily any previous experience, however, at least some parts of the book and, in particular, those concerning the most recent developments, are of interest to actively involved researchers in the field.

Building Community, Leaders and International Conflict, Physical geology, End of the Novel of Love, Como Concebir el Urbanismo (Spanish Edition), Child Rearing in America: Challenges Facing Parents with Young Children, Botticelli (Italian Edition),
