

A grimoire is a journal a witch keeps which includes correspondences, herbal references, and spells. Grimoire of a Crone includes some of that, including spells written in Latin, but also explores the witch as empath and the effect that has upon everything she does. It begins with who we are and then explores life as an empath. From there, rune magick and other divination tools are explored, and yes, there are correspondences. The grimoire ends with an herbal materia medica, for no hedge witch's grimoire would be complete without that. It's a place to begin, and a place for the solitary witch to explore her true nature.
