

Originally issued in 1893, this popular Fifth Edition (1991) covers the period from antiquity to the close of World War I, with major emphasis on advanced mathematics and, in particular, the advanced mathematics of the nineteenth and early twentieth centuries. In one concise volume this unique book presents an interesting and reliable account of mathematics history for those who cannot devote themselves to an intensive study. The book is a must for personal and departmental libraries alike. Cajori has mastered the art of incorporating an enormous amount of specific detail into a smooth-flowing narrative. The Index--for example--contains not just the 300 to 400 names one would expect to find, but over 1,600. And, for example, one will not only find John Pell, but will learn who he was and some specifics of what he did (and that the Pell equation was named erroneously after him). In addition, one will come across Anna J. Pell and learn of her work on biorthogonal systems; one will find not only H. Lebesgue but the not unimportant (even if not major) V.A. Lebesgue. Of the Bernoullis one will find not three or four but all eight. One will find R. Sturm as well as C. Sturm; M. Ricci as well as G. Ricci; V. Riccati as well as J.F. Riccati; Wolfgang Bolyai as well as J. Bolyai; the mathematician Martin Ohm as well as the physicist G.S. Ohm; M. Riesz as well as F. Riesz; H.G. Grassmann as well as H. Grassmann; H.P. Babbage who continued the work of his father C. Babbage; R. Fuchs as well as the more famous L. Fuchs; A. Quetelet as well as L.A.J. Quetelet; P.M. Hahn and Hans Hahn; E. Blaschke and W. Blaschke; J. Picard as well as the more famous C.E. Picard; B. Pascal (of course) and also Ernesto Pascal and Etienne Pascal; and the historically important V.J. Bouniakovski and W.A. Steklov, seldom mentioned at the time outside the Soviet literature.

Women Are Spiritual Bridges: One woman's incredible autobiographical journey out of darkness and into His marvelous light, Seeing Jesus: Glimpses of God in My Life, Creative Mind and Success, Here We Go Round the Mulberry Bush (Little Orchard Board Book), Management Strategy, Egypt in 1855 and 1856; Tunis in 1857 and 1858 Volume 1, Capital, Saving and Credit in Peasant Societies,

Most later books on history of mathematics refer to this book, and for very good reason. It's like an encyclopedic dictionary, arranged in chronological order. thepepesplace.com: A History of Mathematics (AMS Chelsea Publishing) () by Florian Cajori and a great selection of similar New, Used and. Find great deals for AMS Chelsea Publishing: History of Mathematics (, Hardcover, Revised). Shop with confidence on eBay!. A growing collection of ebooks in mathematics published by SIAM from the 's to AMS Chelsea Publishing; CBMS Issues in Mathematics Education; CBMS in Mathematics; History of Mathematics; IAS/Park City Mathematics Series. Chelsea Publishing Co. Publication In this latter category resides The History of Mathematics by Florian Cajori (). That Cajori's. Heinrich Martin Weber was a German mathematician. Weber's main work was in algebra, number theory, and analysis. He is best known for his text Lehrbuch der Algebra published in and New York: AMS Chelsea Publishing, ISBN ; Weber, Heinrich Martin () Read · Edit · View history. AMS Chelsea Publishing History of Mathematics (Innbundet) Principles of Mathematical Logic av W. Ackermann og David Hilbert (Innbundet).
