

The first tale in The Terror Boys series, Locker 222, tells the tale of two film loving middle school friends, Alan and Rainier. When they find a strange slime attached to Alans letterman jacket one morning, which he accidentally left over the weekend in his locker, they vow to solve the mystery. Watching the coat and noting changes in between classes they see that the article of clothing is apparently fashioning itself into a distinct form, one that may be life-giving. Soon the secret becomes impossible to contain. This occurs as the goo continues its odd growth and even stranger transformation. Soon the tiniest of creatures become gargantuan. From herein, it is up to our socially anxious heroes to save the day. Matters become all the more dire when the problem proves to have a close personal tie to one of our leads. Locker 222 is an imaginative, hilarious, thought-provoking and endlessly fun novella from Andrew Buckner. It is also a fast-paced, though character-oriented, read which entertains as effortlessly as it enlightens. Buckner has crafted a young adult novella that will appeal to the dreamer in us all.
