

Entre 1976 y 1982, en medio de la guerra fría, la crisis energética y la incertidumbre económica, tres personajes definieron el rumbo de las relaciones entre México y los Estados Unidos. José López Portillo, Jimmy Carter y Ronald Reagan encarnaron, como pocas veces ocurre, los temores y aspiraciones de sus respectivas sociedades, por lo que las lecciones de este turbulento sexenio son hoy tan relevantes como lo eran hace 30 años. Por tanto, cada una de las anécdotas, hechos y cifras que se comparten a lo largo de estas páginas significa mucho más que un mero ejercicio de nostalgia, son una herramienta para decidir en el presente y, como consecuencia, darle forma al futuro. Este libro reúne el análisis del entorno geopolítico con la historia y la personalidad de López, Carter y Reagan, ofreciéndole al lector una amplia imagen de la época y de lo que podemos aprender para construir un trato bilateral más efectivo, en beneficio de todos.
