

This is a Summary of a #1 NEW YORK TIMES BESTSELLER: MICHIO KAKU'S The Future of The Mind The New York Times best-selling author of PHYSICS OF THE IMPOSSIBLE, PHYSICS OF THE FUTURE and HYPERSPACE tackles the most fascinating and complex object in the known universe: the human brain. For the first time in history, the secrets of the living brain are being revealed by a battery of high tech brain scans devised by physicists. Now what was once solely the province of science fiction has become a startling reality. Recording memories, telepathy, videotaping our dreams, mind control, avatars, and telekinesis are not only possible; they already exist. THE FUTURE OF THE MIND gives us an authoritative and compelling look at the astonishing research being done in top laboratories around the world—all based on the latest advancements in neuroscience and physics. One day we might have a smart pill that can enhance our cognition; be able to upload our brain to a computer, neuron for neuron; send thoughts and emotions around the world on a brain-net; control computers and robots with our mind; push the very limits of immortality; and perhaps even send our consciousness across the universe. Dr. Kaku takes us on a grand tour of what the future might hold, giving us not only a solid sense of how the brain functions but also how these technologies will change our daily lives. He even presents a radically new way to think about consciousness and applies it to provide fresh insight into mental illness, artificial intelligence and alien consciousness. With Dr. Kaku's deep understanding of modern science and keen eye for future developments, THE FUTURE OF THE MIND is a scientific tour de force—an extraordinary, mind-boggling exploration of the frontiers of neuroscience. Available in a variety of formats, this summary is aimed for those who want to capture the gist of the book but don't have the current time to devour all 400 pages. You get the main summary along with all of the benefits and lessons the actual book has to offer. This summary is not intended to be used without reference to the original book.

Essays in Game Theory: In Honor of Michael Maschler, William Harvey and the Circulation of the Blood, Gems and Apothegms: A collection of original limericks, Noch einmal (German Edition), Journal de Coloration Adulte: Peur (Illustrations D'Animaux Domestiques, La Fleur) (French Edition), Annals of Philosophy, Or, Magazine of Chemistry, Mineralogy, Mechanics, Natural History, Agriculture, and the Arts, Volume 2, In the Shadow of the Sun King (A Darkness to Light Novel), Skin,
