

Get the single resource that defines and illustrates the rapidly evolving world of computer and network security. The MICROSOFT ENCYCLOPEDIA OF SECURITY delivers more than 1000 cross-referenced entries detailing the latest security-related technologies, standards, products, services, and issues including sources and types of attacks, countermeasures, policies, and more. You get clear, concise explanations and case scenarios that deftly take you from concept to real-world application ready answers to help maximize security for your mission-critical systems and data. Know your vulnerabilities understand the ways black-hat attackers footprint and enumerate systems, exploit security holes, crack passwords, elevate privileges, and cover their tracks. Deploy your best defense review fundamental concepts of intrusion detection systems, encryption technologies, virus protection, and computer forensics. Stay one step ahead keep pace with emerging security technologies, such as Wi-Fi Protected Access and XML Encryption; recent government legislation; and the latest industry trends. Decipher security acronyms from AES to XMLDSIG and 3DES to 802.11i, decode essential terms. Build your own network of resources from professional associations and standards organizations to online communities and links to free information, know how to stay current. Get an edge in certification preparation ideal reference for anyone pursuing Security+, MCSE, CISSP, GIAC, and other professional certifications. Entries include: Advanced Encryption Standard backdoors CERT/CC cookie poisoning digital rights management dynamic packet filtering E-SIGN Act file slack hacking honeypots ICMP tunneling IPsec John the Ripper keystroke logging L2TP L0phtCrack managed security service providers message digests NIAP Nmap Qchain one-time passwords password cracking PKI port scanning privacy reverse Telnet Safe Harbor Agreement spoofing Tcp_wrapper Trin00 UDP scanning viruses wardriving Windows® cryptographic API XML signatures Web services security worms zombie zapper and more
