

This book offers an original analysis of the problem of the authority of the state in democracies. Unlike many discussions of democracy that treat authority as a problem primarily of domestic politics or normative values, this book puts the international economy at the centre of the analysis. This volume shows how changes in the international economy from the inter-war years to the end of the twentieth century impacted upon the success and failures of democracy. It makes the argument by considering a range of different cases, and it traces the success and failure of democracies over the past century. It includes detailed studies of democracies in both developed and developing countries, and offers a comparative analysis of their fate. It will appeal to all those interested in democracy, the future of the state and the impact of the international economy on domestic politics.

Choice Without Chaos, Mis Suspiros: versos profundos (Spanish Edition), Leitfaden für die Forsterprüfungen: Ein Handbuch für den Unterricht und Selbstunterricht unter Berücksichtigung der preußischen Verhältnisse sowie für den praktischen Forstwirt (German Edition), Teaching and Learning Vocabulary: Bringing Research to Practice, JobSiliconValley.com: Silicon Valley Jobs Careers Agencies, The Working Week: Instructors Manual, Casa Nostra,
