

Most international relations specialists since World War II have assumed that morality plays only the most peripheral role in the making of substantive foreign policy decisions. To show that moral norms can, and do, significantly affect international affairs, Robert McElroy investigates four cases of American foreign policy-making: U.S. food aid to the Soviet Union during the Russian famine of 1921, Nixons decision to alter U.S. policies on biochemical weapons production in 1969, the signing of the Panama Canal Treaties in 1978, and the bombing of Dresden during World War II.

For the first sixty years of this century, the question of what role morality plays in the formulation of foreign policy lay at the very heart of the scientific study of.
