

An informative and critical analysis of the inefficiency and ineptitude of the American government's response to the natural disaster and consequent widespread tragedy of hurricane Katrina. . . . Unacceptable guides readers through the many contributing factors which resulted in the Bush administration's dysfunctional political policies, such as downgrading FEMA while pushing new resources into the anti-terrorism campaigns and the war in Iraq. To be given high praise for its candor, Unacceptable is very strongly recommended reading for anyone interested in contemporary politics and current events for its outstanding and precise study of the federal government's poor performance and indecisive action for one of the worst natural disaster in American history. "Midwest Book Review" concise [and] excellent reminder of the tragedy that was Katrina, not just in terms of the physical severity of the storm itself but also of the government's severely limited, too-little-too-late response. [Dr. Brasch's] background gives him a perspective that invites analysis in reporting and he doesn't disappoint. . . . He supplies the facts, many of which were buried by the media and replaced by stories that were better companions for the pictures that filled our TVs for a couple of weeks. . . . [Unacceptable is] an important reminder of what tragedy can befall us in the merger of a void in leadership and widespread incompetence; we are vulnerable to not only the disaster wrought by nature but the disaster wrought by the inept officials who blame one another rather than accept responsibility and learn from their errors. "Lynne Glasner, OpEd News" A detailed and concise account of what went wrong in the planning for and response to what many people are calling the nation's worst natural disaster ever. This engrossing well-researched [and] well-written book offers great insight into the federal response to Katrina. "Cherie Fisher, Reader Views
