

With this book, The Brillig Trilogy becomes The Brillig Quartet. In this volume, the author and the redoubtable Professor Adam Brillig collaborate to create a sparkling love story, salted with balls and ball games, Eros, contained lust and the unpredictable world of the psyche, grounded at all times in the classical precepts of Jungian psychology: individuation, typology, complexes, conflict, active imagination, projection, enantiodromia, the holding of tension, and the transcendent function. Jung often noted that the movement from three to four was difficult but psychologically crucial. As expressed in the alchemical Axiom of Maria-One becomes two, two becomes three, and out of the third comes the one as the fourth-we must regularly reassess where we are in our pursuit of wholeness. Read all about it in Not the Big Sleep, the authors latest foray into the unknown.
