

OECD's biannual economic forecasts for the OECD area and selected non-OECD regions. With this issue, a new layout has been adopted to make the book more user-friendly. Beyond the usual analysis of economic developments, statistical tables, and forecasts, this edition has chapters on five additional themes which are dealt with in depth: forces shaping fiscal policy, progress in implementing the OECD Jobs Strategy, the retirement decision, potential advantages of economic instruments in dealing with climate change, and the influence of emerging market economies on OECD countries' international competitiveness.
