Not illustrated. 1891 Excerpt: ...and was liberally interpreted according to the principles of natural equity. It thus furnished a broad basis for the law relating to those obligations which grow out of national agreements. Grotius not only founds the conventional obligations between states upon the law of contract, but shows, in a manner similar to that pursued by the Roman jurists, how specific obligations are affected by damages wrongfully done, and by other accessory facts. The connection between the two systems might, further, be indicated by selecting other examples from the work of Grotius, and by pointing out the influence of Grotius upon more recent publicists, and also by showing how the scientific principles of Grotius and his successors have been taken up into the concrete body of rules actually binding between civilized nations. Such examples, however, would but furnish additional evidence that modern international law cannot be adequately understood without some reference to the Roman sources from which it is in great measure derived. In the words of Mr. Maine: If International Law be not studied historically--if we fail to comprehend, first, the influence of certain theories of the Roman jurisconsults on the mind of Hugo Grotius, and, next, the influence of the great book of Grotius on International Jurisprudence--we lose at once all chance of comprehending that body of rules which alone protects the European commonwealth from anarchy. 5. Spread of the Roman Law by Colonization.--One of the most important movements of modern history has been the spread of European civilization by the establishment of colonies. It is but natural to suppose that such a movement would result in transferring to other lands the ideas and institutions already existing in European states...
