

Super PAA Super PA is considered the pillar that maintains the foundation and continuity on a film/TV set. Whether this jack of all trades is responsible for getting coffee, driving talent, or working as the executive producers right hand man everything a Super PA does is executed at the highest level of perfection. The Production Assistant Bible was created to allow the average person, freelancer, film student, and even actor to acquire the skills needed to work as a super production assistant behind the scenes and become very successful in the film and television industry. The PA Bible gives you the tools you need to conquer all your day-to-day tasks on a film set with ease and perfection. I have included a body language tutorial that will allow you to gain a deeper understanding of nonverbal communication. I've also included inspirational quotes and stories that allow the reader to be super confident when stepping on a film set for the first time. If you ever thought about working on set with the biggest names in Hollywood then this PA Bible should be on top of your wish list. For all you industry professionals I suggest making this PA Bible the industry standard to ensure that each one of your production assistants becomes a Super PA.
