

From the Appalachians to the Atlantic, South Carolinas awe-inspiring beauty is revealed in this visually stirring and heart-warming tribute to one of Americas favorite vacation destinations. Rich with more than 250 stunning photographs, this second volume of Reflections of South Carolina uncovers the geological, natural, and cultural grandeur the Palmetto State packs into 32,000 square miles. A foreword by New York Times best-selling author Mary Alice Monroe complements the photographs and text. In a landscape abundant with waterfalls, rivers, lakes, and surf, South Carolina overflows with flora and fauna, as well as astonishing vistas. On their new journey, photographer Robert C. Clark and writer Tom Poland set out on a path of discovery that reveals charming country stores, water-powered gristmills, enchanting meadows, and extraordinary people and places. From angles high and low, this keepsake book illuminates the states summits, swamps, shores, and islands that brim with life, beauty, and culture. Turn the pages and explore the mountain majesties, fruited plain, and shining sea--South Carolina holds so much of what makes this country America the Beautiful. Reflections of South Carolina, Volume 2 documents the states surprising variety as well. You can stand atop Sassafras Mountain in August and yet feel falls chill or walk Charlestons cobblestone streets in shorts in the middle of February. Clark and Poland advise visitors and residents alike to take their time exploring South Carolina and whenever possible to take the road less traveled--for the next turn might reveal an antebellum-era slave chapel, a farmer peddling honey and tomatoes, a mountains reflection in a sparkling lake, or a peach orchard exploding pink. What could be next? A praise house? An unforgettable character? Art on an abandoned boat? Discovery makes a great companion.
