

This one-of-a-kind disk was found in the early 1920s in Phaistos Crete. Although all other Cretan languages have been translated, this one has not. The others are Greek-Mycenaean and Minos languages but this one is not. Is it another scholarly hoax, or is it the first written language of the Pre-Ugaritic and Pre-Aramaic Syrian alphabet? This 22 page monograph lists all the characters, and scholarly guesses about many of them and came to a conclusion in this monograph's first edition that is contradicted in this one.

The famous Phaistos Disc is one of archaeology's greatest mysteries. Neither its origin nor the meaning of the inscription could yet be determined. Side A of the Phaistos Disc speaks of the pregnant goddess who glows and side B about the goddess who grows dim, according to G. Owens.

The Phaistos Disc was discovered in the basement of room XL of the Minoan palace-site of Phaistos, near Hagia Triada, on the south coast of Crete. Scientists have been trying to decipher the mysterious "Phaistos Disk" since the 4,000 year old clay disk was discovered in Crete.

July 3 marks the 100th anniversary since the Phaistos Disc was discovered on the island of Crete. The finding of Italian archaeologist Luigi. The Phaistos (or Phaestos) Disc is a large, amber-coloured, fired clay plate, about 15 cm in diameter and 1 cm thick. Both sides of the disc are covered with a .

The Phaistos Disc is an incredible object, and to have any chance of understanding it we need to know where it came from. By contextual evidence we believe.

The Phaistos Disc script appears on a clay disc found in a Minoan palace site at Phaistos on Crete. It has not been deciphered.
