

This reference brings the new student into the hospital wards full of knowledge and practical skill. The book presupposes no experience in the hospital setting and familiarizes the new student in a comfortable and non-threatening manner. The book includes handy tear out cards for use on the wards. The first card provides the student with two patient assessment forms and the second folds into a palm-sized review of the physical examination. An appendix lists the majority of abbreviations encountered by students on the ward and a glossary of terms provides a background vocabulary.
